Loading the Hebraic Roots Bible file onto e-Readers

Each e-Reader type requires loading book files onto the readers in a unique manner and cannot be covered here. You are referred to various support sites and manuals for your particular e-Reader. There are readily available computer software applications that facilitate this loading process. One recommendation is 'calibre' (<http://calibre-ebook.com>). Many other similar programs are also available on the internet.

Navigating Within the Hebraic Roots Bible

E-Readers typically have limited inherent navigational features since they were primarily designed as a book reader, not a reference source with easy navigation to exact locations in the book. In Bible reading the reader may not only want to read consecutive verses and chapters but also desire to jump to other verses in different chapters and books within the Bible. Consequently, some unique features have been added that aids the reader in moving to a specific starting point or reference point in the Bible. These will be described here.

Table of Contents

The books of the Bible can be selected directly from the e-Reader's Table-of-Contents, TOC, function. Each of the 69 books of the Bible can be selected from the TOC, along with the Introduction, Concordance and Maps sections. A typical TOC page should look something like the following:

Table of Contents
Introduction
Genesis
Exodus
Leviticus
Numbers
Deuteronomy
Joshua
Judges
1 Samuel
2 Samuel
1 Kings
2 Kings
Isaiah
Jeremiah
Ezekiel
Daniel
Hosea
Joel
Amos
Obadiah
Jonah
Micah
Nahum
Habakkuk
Zephaniah

Selecting the name of the book with a cursor / finger touch, etc. will take you directly to the beginning of the selected book.

Selecting Chapters Within a Book

At the head of each book is a summary of the chapter numbers within the selected book. These chapter numbers can be selected using the cursor/finger touch, etc. (depending upon the e-Reader or application used) to immediately go the start of the chapter. This is illustrated below for a typical e-Reader:

Verse Structure

The Biblical text has a verse structure that contains both the chapter number and verse number ahead of each verse to keep the reader better aware of where they are within the book, as shown below:

1:1 In the beginning Elohim created the heavens and the earth;¹

1:2 and the earth being without form and empty, and darkness on the face of the deep, and the Spirit of Elohim moving gently on the face of the waters,

1:3 then Elohim said, Let light be! And there was light.²

1:4 And Elohim saw the light, that *it was* good, and Elohim separated between the light and darkness. (*Joh 1:4*)

1:5 And Elohim called the light, Day. And He called the darkness, Night. And there was evening, and there was morning, day one. ³

1:6 And Elohim said, Let an expanse be in the midst of the waters, and let it be dividing between the waters *and* the waters.

Returning to the Head of the Book

Returning back to the head of the book from within is facilitated by the 'return function' at the end of each chapter. Selecting the 'return function' returns the reader back to the head of the book. From there the reader can go quickly to another chapter in the same book or to the TOC to go to another location in the Scriptures. The 'return function' has a small left-pointing arrow and the title of the book, as shown below:

very good. And there was evening, and there was morning, the sixth day.

2:1 And the heavens and the earth were finished, and all their host.

2:2 And on the seventh day Elohim completed His work which He had made. And He rested on the seventh day from all His work which He had made. ⁷

Using Footnotes

This version of the Hebraic Roots Bible contains extensive footnotes and comments which are of great value to the reader. These footnotes and notes are identified with small superscript numbers (see below), much like the printed version. Selecting the footnote number (via cursor, finger touch, etc.) will cause the e-Reader to immediately go to the referenced footnote bearing the same number.

Bible Text with footnote references

1:1 In the beginning Elohim created the heavens and the earth;¹

1:2 and the earth being without form and empty, and darkness on the face of the deep, and the Spirit of Elohim moving gently on the face of the waters,

1:3 then Elohim said, Let light be! And there was light.²

Referenced text of footnote

¹ *"In the beginning"* The first words of scripture and also the Hebrew name for Genesis called *"B'rasheet"*. Elohim, a generic term used for deity in scripture roughly 2,500 times. The word in Hebrew is plural and shows the duality of the Yahweh family at creation, Gen 1:26.

² Due to YHWH's great and awesome power all He needs to do is to speak and creation occurred, Joh 1:1-3, Mk 4:39-41, .

Returning from the footnote text area back to the original place can be easily done by using the e_Reader's "Back" key or function. You will return directly back to the same location and view in the Bible that you were prior to selecting the footnote. Another way to return from the footnote area is to select the footnote number from within the footnote area. You will return to the same area but not with the exact same view.

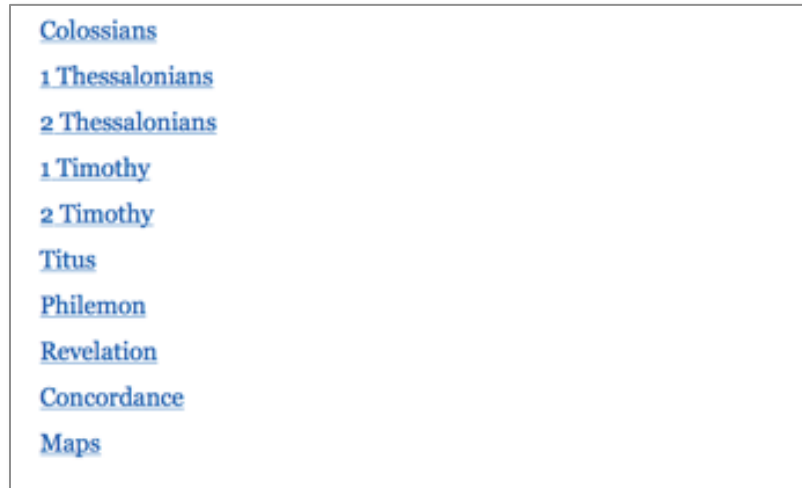

Footnotes are numbered consecutively within each book and repeat for other books.

Introduction

The introduction to the Hebraic Roots Bible can be accessed through the Bible's Table of Contents. It is the first item in the TOC and can be readily selected.

Concordance

This version of the Hebraic Roots Bible has a Concordance that is useful in studying Scriptural topics. The concordance can be accessed directly from the Bible's TOC just as any book. It is located near the end of the TOC list as noted below.
