

# Israeli Intelligence Report

June 2011

Greetings, and shalom in the wonderful name of Yahshua our Savior. Welcome to this new Israeli intelligence report that I believe is extremely important due to the times that we are living in.

The first thing you must realize is how much of what you are hearing in the main stream media news is tainted and false. The powers that be are manipulating the global situation to bring in a Palestinian State in order for the anti-Messiah to appear and to create a pseudo utopia society that will be established on socialism and communistic principles. There will be articles on this in future issues that will fully lay out this premise with supporting evidence to even the highest sceptic.

One thing to watch for this summer is the financial situation in the USA/Babylon and if America will lose its triple A credit rating as congress fights over whether to default on their deficit. {see link}

With things progressing so quickly with the Arab spring and the peace process here in Israel, I wanted to get you some of the most recent reports that you can be watching and praying as we see these things developing.

So far in the so-called Arab spring the only winner has been Iran. Iran has coveted power first in Syria and Lebanon with the new Lebanese prime minister who took office last fall, which seems like an eternity now. They have also grabbed power from Bahrain to Saudi Arabia and even picking up points in Egypt.

Mahmud Amadinajad is in a very special group called the 12er's whose whole existence as a human being is to bring in the Muslim messiah called the Mahdi, who can only appear if there is world chaos and after Iran has taken control of Jerusalem. Iran has made a new video at the link below linking all of the current upheaval in the Middle East to their own warped view of prophecy.

Some other news of interest is as follows; As mentioned above Lebanon has fully enacted their new government and 18 out of 30 officials are part of and allied with the terror group Hezbollah.

The United States has also moved naval ships and military hardware into the area around Syria for a possible confrontation.

Also, North Korea has tested an EMP weapon, which is very scary. Please see the link below.

As well as Iran has test fired also EMP weapons and there is a fear that they are planning a first strike nuclear attack from a ship at the United States to take out its infrastructure. Please see the link below.

But to me one of the biggest happenings in the Middle East is Egypt. For 30 years Hosni Mubarak has been an American puppet and has negotiated with every Israeli prime minister that was in office including Ariel Sharon who was considered a hawk even among the most liberal Muslim leaders. He has kept Hamas at bay and also an artificial peace in the region.

Now, America has abandoned their closest ally Mubarak because they realize that a Palestinian state cannot come through a peace process, but only through war, and now President Obama is supporting the Muslim brotherhood, which is the proxy for the terror group Hamas in order to strengthen the Arab nations around Israel for her destruction.

In his most recent speech on the Middle East last month President Obama stated that Israel must retreat back to the pre- 1967 borders in any given peace deal, a situation that would make them indefensible and cause their ruin.

Interesting enough though, when Prime minister Netanyahu spoke to the US congress right after that he stated that "*Israel knew that in any given peace deal there would have to be an exchange of land that would put some populations of Israel outside their border.*"

Did you catch that last phrase. He clearly delineated that in any given peace deal that Israel would give away Jewish settlements that would be left within the confines of what would then be recognized as the state of Palestine.

This land he speaks of is in the heart land of the tribes of Ephraim and Manasseh in the hills of Samaria. Although it was the biggest statement made in the speech it went mostly unnoticed, but it clearly showed what is in store for the Israeli settlers in the short future.

We need to be watching and praying daily as we see that day approaching knowing how close we are to the end of this evil age and the beginning of Yahweh's soon coming kingdom.

Iran believes that with the help of Russia and China they can replace the USA as the world's superpower and they are planning to cripple the US economy and then, possibly strike it with a nuclear weapon and completely take her down. Only Yahweh knows the timing of all this but things are surely falling into place. Up to date, Iran has stockpiled enough uranium for up to 4 nuclear bombs. Please see below link. World war three is coming.
